EXPERIENCE

Senior Software Engineer at Bizzntek Ltd.

Oct 2020 – Present · Uttara, Dhaka

Enterprise web applications, Dynamics 365 Business Central extensions, cloud and high-throughput API back ends.

- **Western Digital — CIO Management Application** (client via Altios, ongoing). Engineering the executive CIO application for Western Digital: IT governance workflows, integration pipelines across enterprise systems, high-throughput back-end APIs and operational analytics.
- **GoGlobal — first-version management platform** (client via Altios). Built the foundational platform for GoGlobal's Employer of Record (EOR) business: entity setup, cross-border compliance tracking and ERP data synchronization.
- **Microsoft — Dynamics 365 Business Central localization for Bangladesh.** Key developer of AL extensions implementing National Board of Revenue (NBR) rules: VAT withholding, tax computation and statutory audit reporting.
- **Rent Grid & Hotel Grid (USA).** Delivered multi-tenant property and hotel management systems with booking engines, automated tenant invoicing, payment-gateway integration and financial ledgers.

Software Engineer at SmartSoft Technology

Mar 2019 – Sep 2020 · Mirpur, Dhaka

Manufacturing ERP systems, point-of-sale platforms and SQL Server solutions.

- **Factory Management ERP** (MH Golden Jute Ltd.). Raw jute intake, batch production workflows, warehouse inventory and automated double-entry accounting.
- **Smart Sell POS & inventory** (Kushtia Tech). Role-based field-sales order booking, multi-warehouse stock synchronization and ledger reporting.
- **Task & workflow management** (MH Golden Jute Ltd.). Cross-department task assignment with audit trails, milestone tracking and productivity reports.

Software Engineer at Genuine Technology & Research Ltd. (GTRBD)

Oct 2018 – Feb 2019 · Uttara, Dhaka

Biometric hardware integration, attendance and automated payroll.

- **Garments HR & biometric payroll** (FnF Fashion BD). Integrated ZKT fingerprint devices with SQL Server and built overtime, shift-rotation and monthly payroll calculations for hundreds of factory workers.
